[TomblinCDCltr.pdf](#)

Dear Bernadette,

Hello and good morning.

Lora Werner introduced us more than a week ago and I've wanted to talk with you ever since then.

I'm sure that you are aware of the Governor's request, but wanted to send the story about it along - - just in case.

Mark Ferrell is EPA's State and Congressional Liaison for West Virginia and lives in Charleston. He's been terrific at sending us the media coverage.

When you have a moment, sometime this afternoon, could you please give me a call? I look forward to talking to you whenever that works for you.

Best,

Bonnie Smith

US Environmental Protection Agency

Subject: WV gov asks CDC for more studies

West Virginia Governor Earl Ray Tomblin has written to CDC to request further toxicology and long term health studies related to MCHM. Letter attached.

Mark Ferrell

EPA Region 3

Office of State and Congressional Relations

West Virginia Liaison

Charleston, W.Va.
